

BarangayLink - Captain Manual

A complete guide for Barangay Captains and Officials.

Your Role

As **Captain**, you oversee all barangay operations. You're the leader who approves projects, monitors progress, and ensures the community is well-served.

You can see everything happening across all departments, approve major decisions, and access reports that help you make informed choices.

Getting Started

Your Dashboard

When you log in, you'll see: - Projects awaiting your approval - Upcoming community events - Overall progress statistics - Important notifications - Activity from all departments

What You Have Access To

- **All Projects** - View and approve projects from any department
 - **All Events** - See every scheduled event
 - **Analytics** - Reports and statistics
 - **Team Overview** - See all staff and their work
 - **Approval Queue** - Projects and requests needing your decision
-

Project Approvals

One of your main responsibilities is reviewing and approving projects.

Why Projects Need Approval

Managers create projects, but they need your approval before work officially begins. This ensures: - Budget is appropriate - Timeline is realistic - The project aligns with barangay priorities - Resources are available

How to Review a Project

1. Go to **Projects** → **Pending Approval**
2. Click on a project to see details
3. Review these carefully:
 - **Title & Description** - Is the scope clear?

- **Budget** - Is it reasonable?
- **Timeline** - Start and end dates realistic?
- **Team** - Right people assigned?
- **Department** - Correct department handling it?

Making Your Decision

To Approve: 1. Click **Approve** 2. Add comments if you have advice 3. The manager gets notified 4. Work can begin

To Request Changes: 1. Click **Request Revision** 2. Explain what needs to change 3. Manager will revise and resubmit

To Reject: 1. Click **Reject** 2. Provide a clear reason 3. Use this sparingly - revision is usually better

Approval Tips

- Don't let projects sit too long - managers are waiting
 - Ask questions via comments if unclear
 - Consider the bigger picture - how does this fit with other projects?
 - Check if similar projects already exist
-

Monitoring Projects

Keep track of how projects are progressing.

Project Status Overview

1. Go to **Projects**
2. See all active projects
3. Each shows:
 - Progress percentage
 - Status (Planning, Active, etc.)
 - Team assigned
 - Deadline

What to Look For

Healthy Project: - Progress matching timeline - Tasks being completed - Team is active - On track for deadline

Project at Risk: - Progress behind schedule - Many overdue tasks - No recent activity - Approaching deadline with low completion

Taking Action

If a project is struggling: 1. Click on the project 2. Review what's happening 3. Add a comment asking for update 4. Message the Manager directly 5. Offer help or resources if needed

Event Oversight

Community events are a big part of barangay life.

Viewing Events

1. Go to **Events**
2. See calendar of all events
3. Click any event for details

Event Control Panel

For active events, you can access the control panel:

1. Open the event
2. Click **Control Panel**
3. See real-time information:
 - Attendance count
 - Task progress
 - Staff assignments
 - Guest registrations

Checking Attendance

During or after an event: 1. Go to the event's Control Panel 2. Click **Attendance** 3. See who checked in 4. Download attendance report

This is useful for: - Tracking participation - Planning future events - Reporting to higher offices

Analytics & Reports

Make decisions based on data.

Available Reports

Project Reports: - Completion rates by department - Budget vs actual spending - Timeline accuracy - Resource utilization

Team Reports: - Staff productivity - Task completion rates - Active vs inactive users - Workload distribution

Event Reports: - Attendance numbers - Event success metrics - Community participation trends

Generating a Report

1. Go to **Dashboard** → **Analytics**
2. Select report type
3. Choose time period
4. Click **Generate**
5. View or download (PDF/Excel)

What to Do with Reports

- **Monthly review** - Check department performance
 - **Budget planning** - Use spending data
 - **Staff evaluations** - Review productivity
 - **Community presentations** - Show progress to residents
-

Team Management

You can see everyone in the system.

Viewing Staff

1. Go to **Dashboard** → **Team** or use Admin section
2. See all staff organized by department
3. Click anyone to see:
 - Their assigned tasks
 - Projects they're on
 - Recent activity

Team Workload

1. Go to **Dashboard** → **Team Workload**
2. See who's overloaded
3. See who has capacity
4. Talk to Managers about balancing work

When to Intervene

Consider stepping in when: - A department is consistently underperforming
- Team conflicts need resolution - Resources need to be reallocated - Major decisions need to be made

Common Scenarios

Scenario: Weekly Operations Review

Every week, do this review:

1. **Check Project Status**
 - Go to Projects
 - Note any behind schedule
 - Follow up with managers
2. **Review Upcoming Events**
 - Check next week's events
 - Ensure preparation is on track
 - Verify staff assignments
3. **Look at Numbers**
 - Generate weekly summary
 - Compare to previous weeks
 - Identify trends
4. **Address Issues**
 - Respond to flagged items
 - Make pending approvals
 - Answer questions from staff

Scenario: Budget Review

When checking department budgets:

1. Go to **Projects** → Filter by department
2. Check each project's budget section
3. Compare allocated vs spent
4. Note any overruns
5. Discuss with Manager if needed

Scenario: Preparing for a Major Event

Before a big community event:

1. **One Week Before:**
 - Review event plan
 - Check task assignments
 - Verify all roles are filled
2. **Day Before:**
 - Access Control Panel
 - Run through checklist
 - Confirm with lead staff
3. **Event Day:**

- Monitor real-time attendance
 - Check task completion
 - Be available for escalations
4. **After Event:**
 - Download attendance report
 - Review feedback
 - Document lessons learned

Scenario: New Project Comes In for Approval

When you get a new project:

1. Read the full description
 2. Check the budget breakdown
 3. Review the timeline
 4. Look at assigned team
 5. Consider:
 - Do we have the resources?
 - Is timing right?
 - Does this align with priorities?
 6. Approve, request changes, or reject
 7. Add helpful comments
-

Communication

Stay connected with your team.

Using Messages

1. Go to **Messages**
2. Start a conversation with anyone
3. Create group chats for:
 - Department heads meeting
 - Special project teams
 - Emergency coordination

Making Announcements

Important updates should go to everyone: 1. Create a message 2. Select all relevant staff 3. Mark as important if urgent 4. Or use department group chats

When to Message vs. Comment

- **Comment on project/task** - For project-specific discussion
- **Direct message** - For private or personal matters
- **Group message** - For team coordination

Your Daily Routine

Morning (15 minutes)

- ☐ Check notifications
- ☐ Review pending approvals
- ☐ Look at today's events
- ☐ Scan project status

During the Day

- ☐ Respond to messages
- ☐ Make approval decisions
- ☐ Check in on active events
- ☐ Address any escalated issues

End of Day (10 minutes)

- ☐ Clear pending items
- ☐ Note anything for tomorrow
- ☐ Check tomorrow's schedule

Weekly

- ☐ Full project review
 - ☐ Meet with department managers
 - ☐ Generate progress reports
 - ☐ Plan upcoming week
-

Tips for Success

1. **Be responsive** - Don't leave approvals pending too long
 2. **Stay informed** - Check the system daily
 3. **Trust your managers** - They know their departments
 4. **Use data** - Let reports guide decisions
 5. **Communicate clearly** - Good feedback helps everyone
 6. **Be visible** - Your engagement motivates the team
 7. **Plan ahead** - Anticipate busy periods
-

Quick Reference

Project Status Meanings

Status	Meaning
Planning	Being organized, not started
Pending Approval	Waiting for you!
Active	Work in progress
On Hold	Paused temporarily
Completed	All done
Cancelled	Stopped, won't continue

Priority Colors

- **Urgent** - Needs immediate attention
- **High** - Important, do soon
- **Medium** - Normal priority
- **Low** - When time permits
